

# EQUIPMENT

/MACHINERY LEASE FINANCING

## PRODUCT OVERVIEW:

It unlocks the potential of business with versatile Equipment/Machinery Lease Financing, a loan product catering to both lessees and lessors in the leasing industry.

### Key Features and Benefits

- Dual Offering for Both Parties:
  - Choose from two financing options:
- Equipment/Machinery Lease Financing to the Lessee:
  - A short-term loan supporting lessees in renting/leasing new capital goods.
- Equipment/Machinery Lease Financing to the Lessor:
  - A term loan aiding leasing companies/individuals in purchasing new capital goods for leasing/renting businesses.
- Flexible Repayment Terms:
  - The lease agreement may feature periodical repayments or lump-sum payments over the lease period, providing flexibility.
- Experience Requirement:
  - Business entities must have a minimum of one year of experience, ensuring a stable foundation for successful leasing operations.
- Aligned Repayment Period:
  - The repayment period of the loan aligns with the agreed lease period or a maximum of two years, whichever comes first.
- Collateral Support:
  - Lessees or lessors can present acceptable collateral, securing the financing needed for equipment/machinery leasing.

- International Capital Goods Procurement:
  - If capital goods are sourced from abroad, the bank can open a Letter of Credit to facilitate the import process.
- Brand-New Capital Goods for Lessors:
  - Capital goods purchased for lessors must be brand new, ensuring the highest quality for leasing businesses.

## ELIGIBLE CANDIDATES:

Perfect for rental service providers, contractors, and businesses in the leasing industry, our Equipment/Machinery Lease Financing opens the door to business growth and success.

### TARGET CUSTOMERS

- Businesses and individuals involved in leasing equipment or machinery.
