

# CCF

(COLLATERALIZED COMMODITY FINANCING)

## PRODUCT OVERVIEW:

CCF offers credit secured against stored commodities, utilizing a warehouse receipt as collateral. This receipt serves as proof, backed by confirmed capital sources, ensuring that specified goods are stored in an approved facility. It also confirms the pledger's title to use these goods as collateral for credit.

## TARGET CUSTOMERS

-  Model farmers
-  Cooperatives
-  Individual warehouses
-  Traders
-  Agro-processors

## Key Features and Benefits

- Swift access to loans for the agricultural sector.
- Empowers farmers to store goods, preventing distress sales during low-price harvest seasons.
- Opportunity to modernize warehouse and storage practices.
- Enhances primary cooperative agricultural commodity aggregation capacity.
- Provides additional working capital.
- Develops a comprehensive credit database for customers.
- Offers an attractive and affordable lending rate.
- Regulatory bodies will monitor commodities in the warehouse.

## ELIGIBLE CANDIDATES:

Farmers, primary cooperatives, cooperative unions, traders, and agro-processors can benefit from the advantages of CCF.
